Pre-Chewed Food May Pose HIV Threat To Infants

Upcoming Activities

5-6 September 2011 - PANCAP with support from the USAID Health Policy Project (HPP) will hold a meeting in Port-of-Spain, Trinidad and Tobago for the participatory development of a framework for a comprehensive national response to stigma and discrimination. This will provide regional as well as national direction for reduction in HIV-related stigma and discrimination. The “Stigma Framework” will outline the key components for a comprehensive response to stigma and discrimination as well as laying out a process for in-country assessing of local needs and resources, determining gaps and opportunities and integrating stigma reduction into existing endeavours. For further information please contact Ms. Ayana Hypolite, Strategy and Resourcing Officer (Stigma and Discrimination), PANCAP Coordinating Unit at ahypolite@caricom.org.
